23 December 1983

MEMORANDUM FOR: Director, Intelligence Community Staff
FROM: Director of Central Intelligence
SUBJECT: Review of Intelligence Community Activities

I promised our boss a roundup of the progress the Intelligence Community has made over the last three years. Could you pull together for me some paragraphs on a Community level on improvements in capabilities, modus operandi and performance, with examples and incidents which would give him a feel for what we've done with the support he has given us.
